papers in their possession.

Although the battle of Fredericksburg on Saturday last resulted greatly in favor of our arms, it did not prave so decisive as we could have desired. The future movements and purposes of BURNSTON are involved in mystery. It may be his intention to cross the river at are se disheartened and demoralized as to disincline him to hazard unother general engagement. A few days, however, will develop his designs.

General Proce's corps is said to be admirably posted, and ready, while the cavalry, under General Van Donn, has already commenced operations that will be felt by the enemy. The latter efficer, it is generally concsdad, is now in his proper sphere, and officers and men will follow his lead with the greatest confidence.

THE EMERGENCY IN MISSISSIPPI. We have not the least doubt that the danger now threatening Masissippi is greatly undersated by the people of the State as well as by the Confederate government. We have every evidence of the fact in the evident carelessness of the people, as seen in their neglect to rally at the call of their officials, and, we regret to add, we also see in some important instances that which | New York Herald has a disputch from Washingcannot be characterized otherwise than as inofficiency in officials. The people of Mississippi should not rely alone upon the Confederate government for assistance, as it is impossible to tell what its own exisencies are. It has numerous important points to look after, and while each of those is defended by portions of the Confederate army, the people must assist.
